

## Modern Slavery Act Slavery and Anti human trafficking statements: companies in Sussex and Surrey

### Summary of findings:

We have analysed 20 slavery and human trafficking statements of companies based in Sussex and West Surrey.

Our research reveals the following findings:

- None of the statements meet both legal requirements (signed by director or equivalent & have link from homepage – see section 54(6) & (7)).

For each of these criteria the number of companies meeting them are the following:

- 2 signed by company director or equivalent depending on type of organization (this requirement set out in s54(6) ensures senior level accountability, leadership and responsibility for modern slavery)
- 6 have a link from the homepage of the company website (this requirement set out in s54(7) ensures greater public transparency by the company)

For more information on how to publish a statement that meets the requirements of the Act, taking into account both the government and civil society guidance download our guide: <http://clt-envirolaw.com/portfolio-items/briefing-note-business-legal-best-practice-requirements-publishing-modern-slavery-statement/?portfolioID=7611>
